FOREIGN PLANT QUARANTINES

GLADIOLI

"Best By Every Test"

Homewood Gardens

GIG HARBOR, WASH.

MRS. G. SCHWESINGER

Greetings to Glad Growers

The Gladiolus needs no introduction or praise, it speaks for itself. It is truly democratic, growing for you or for me anybody, everybody, anywhere and everywhere. Each year the size, color and beauty of the "Glorious Gladiolus" is being improved upon 'til now they surpass the lily in elegance, and void of its oppressive perfume. Its season of blooming from successive plantings also far exceeds the brief blooming period of other grand floral subjects as the iris, Pionies and Phlox. As a cut flower it has no equal. If cut when the first bud shows color it will unfold its gorgeous florets to the very tip in water.

The Puget Sound Country has been called the "Holland of America". Tests completed by experts indicate that bulbs grown in the mild moist climate of Puget Sound are Superior to bulbs grown in any other country in the world, Holland not excepted.

Orders filled in the order received and sent postpaid in U. S. and Canada, on orders of \$5 or more. On small orders please include postage. Order early while stock is complete and if possible give second and third choice and if for any reason the bulbs when received are not satisfactory, return at once and I will cheerfully refund your money.

Terms: Cash with order for immediate delivery. A deposit of 25 per cent of order will hold any order for future delivery. Money order, bank draft or personal check accepted.

This list of choice named varieties represents "the best by every test" arranged alphabetically for your convenience. The name in parenthesis signifies the originator which means much to the glad fan.

	Each
Alton (K). Magnificent new gladiolus of gorgeous orange shade, heavily ruffled50
AVALON. A lovely ruffled blush white beautiful throat.25
A. W. Hunt (K) Fine large orange red.75

H O M E W O O D G A R D E N S

GIG HARBOR, WASHINGTON

Puget Sound has long been called "The Holland of America" While Eastern Growers have lost heavily on account of early frosts and extreme cold, the Pacific North west has enjoyed an unprecedented growing and harvesting season.

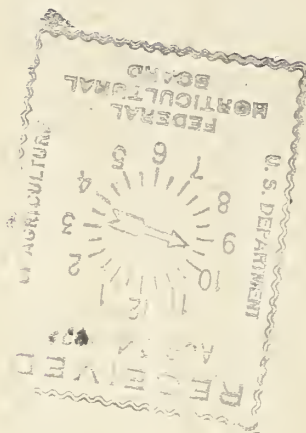

Our bulbs are bigger, better, cleaner and healthier than ever and our prices invite comparison. We appreciate your orders.

TERMS:-- Net cash before shipment. 25% deposit will hold orders until March 1st. Stock offered and orders accepted subject to prior sale.

All stock true to name. Prices quoted are prepaid in zones 1 and 2, and on other orders amounting to \$10.00 or more.

Bbl.'s,

Shella (Coleman) An improved Prince of Wales. much larger flower on tall spike.	25	CULTURAL DIRECTIONS	
Souvenir (Prim) Pure golden yellow with cut markings.	15	Gladioli may be planted any time the ground is in good condition and danger of frost is over. in our climate about May first. Large bulbs should be planted five to six inches deep, small bulbs less. The roots go down, so the ground should be well pulverized and enriched below as well as above the bulbs. No fresh manure should come in contact with the bulb. They should have full exposure to the sun and not where roots of trees or shrubbery sap the ground. Cultivate enough to keep down weeds and do not let a crust form around young plants. Water once a week if necessary. After tops are killed by frost, lift carefully and dry in sun for two days. Separate tiny bulblets or cormels from bulb and store in cool, dry, place in ventilated boxes safe from frost. The little offsets around the bulb are your increase. Take care of them.	
Techla (Prim). A tall slender spike of creamy yellow flowers Especially nice for bouquet work. Has many side branches an extended blooming period.	05	WHOLESALE LIST ON REQUEST
